

Do you have expertise in drug discovery and development?

Could a funded research expert help progress your R&D?

Chagas disease and leishmaniasis are lethal, neglected diseases

Current treatments are inadequate, with toxicity issues | No safe, effective alternatives

A **Global Network for Neglected Tropical Diseases**, led from Durham University, aims to find new therapeutic solutions for these potentially-fatal parasitic diseases.

Parasitologists | Chemical biologists | Structural biologists | Immunologists

How can we help you?

Up to £10k academic contribution

Provides e.g.:

- A researcher for 3 months
- Specialised equipment for joint project
- Biologics, chemical library access

Industrial partner in-kind contribution

Provides e.g.:

- Expertise and time
- Access to specialist equipment
- Chemical compounds

This may lead to funding for future projects!
